

Berrydesign and shipping around the World

Thank you very much for your interest in my designs which can either be made in our standard sizes or to a bespoke specification.

We show our work in our two converted barns here in Newbury, England, and we are about 1 hours' drive west of central London, in the leafy Hampshire countryside. Our workshops are thankfully very busy and we always sell directly to the client and not through agents or retailers to give you the best value, and to make sure that we get the furniture perfect for your home.

If you are too far away to visit you will be obviously nervous of our quality and expertise, but as our aim to produce the finest furniture that you will find in the world, you should be able to relax and trust what we do.

You can see our prices at the bottom of every "Design page" and just scroll to the bottom and click your choices. Prices shown do include UK VAT @ 20% so this may be deducted in the case on non – EU countries. Ours costs are "ex-workshop" and once volumes are known based on your order requirements, quotes can then be obtained for shipping and insurance.

If you wish to have a discussion by Skype then we can fix up a convenient time and we can then discuss the finer details. High definition photos can also be sent so that you can see in "close up" our quality and design features.

We are very proud to say that our work can now be found in customers' homes around the world and always our aim is to get all details exactly right for your needs, in a way that only a small family workshop can do through personal contact with our clients.

Thank you very much for your interest in my designs and just contact me with how you would like to proceed.

With best wishes

Christopher Berry.

P.S – Please see the testimonial below from one of our US customers:

"The table arrived yesterday safe and sound. You did an amazing job crating and shipping it.

The table itself is absolutely beautiful. I can't even express how pleased I am. I'm not going to lie, I was a little nervous considering I had never seen or touched your items first hand. Especially, when you are investing a great deal of money into such an important piece of furniture.

All I can say is that this process was totally worth it and I got exactly what I was looking for. You really did an amazing job. The table is absolutely gorgeous! Thank you for everything. Thank you for communicating with me from afar.

Most of all, thank you for the beautiful table that is now in my dining room!"
